2021 VOYAGES
A NEW EXPEDITION ERA BEGINS
GREAT BARRIER REEF

Celebrating 35 years of Great Barrier Reef exploration with new extended expeditions aboard Coral Discoverer

› Outerknown Adventures on the Great Barrier Reef
› Coastal Cultures of the Torres Strait and Cape York
› Revitalise on the Reef
Covering an area of over 2600 km and encompassing over 900 islands, the Great Barrier Reef is the world’s largest living structure and home to an abundant and thriving array of marine and birdlife species. It holds pride of place as one of the seven natural wonders of the world and is a UNESCO World Heritage area.

Coral Expeditions pioneered expedition cruises on the outer reaches of the Great Barrier Reef 35 years ago, and since then have forged a reputation for excellence and expertise. In 2021, a new era of Great Barrier Reef exploration will begin as the yacht-like Coral Discoverer commences immersive 7-day adventures to the remote and untouched Northern reef. These expedition voyages, from June to December annually, will explore the hidden corners, uninhabited sand cays, small islands and pristine reef systems. Along the way find freedom and solitude amidst this iconic seascape.

Snorkelling & Scuba
The opportunity to snorkel and scuba dive over spectacular coral gardens and come face to face with brightly coloured tropical fish is a highlight of our Great Barrier Reef cruises. Beginners can join guided snorkelling tours or introductory and resort-style dives, while more experienced divers are able to participate in more challenging dives (scuba diving at additional cost). Our qualified Dive Instructor accompanies you every step of the way. Snorkelling equipment will be assigned to each guest at the commencement of the cruise, and the onboard introductory scuba skills session is complimentary. Scuba diving is subject to medical clearance and medical certificate. See our website for requirements.

The Expedition Experience

We explore remote locations that are hard to get to or not often touched by tourists, with shore excursions that promote environmental and cultural appreciation. Our small group size ensures that your experience is personal, with minimal impact on the communities and environments we visit.

Enjoy excursions or activities each day, guided by expert Expedition Leaders and lecturers who provide commentary on culture, history, and the region’s unique geology, plants and wildlife to help you connect with these special places.

TRIP LOG

“We then started our afternoon activities at Yamacutta Reef. The weather was once again on our side, allowing for a perfect afternoon. We had snorkeling activities off the glass bottom boat and both Molly and I did snorkel assists. I estimate the coral coverage to be over 90% at Yamacutta and by far one of the best reefs we visit. Amongst a huge variety of corals, it is covered in multi-coloured plate corals with an incredibly diverse amount of candy coloured reef fish. We spotted a shark and a ray and many of the guests commented that it was one of the best snorkeling experiences they’d ever had. To finish the afternoon, I did a glass bottom boat tour so we could all have another chance to view the beautiful tabular coral formations of Yamacutta.”

COASTAL CULTURES OF THE TORRES STRAIT & CAPE YORK

DAVID BOSUN - GUEST ARTIST

Torres Strait Island artist David Bosun is from the tribe of Wug on Moa Island and grew up in a very sensitive cultural environment. From the age of four he practiced traditional dancing and singing. From 1993 to 1995 David studied for an Associate Diploma in Communications at James Cook University, and in 1997 David returned to Moa Island to pursue his art career.

David believes that both the future generations in the Torres Strait, as well as the rest of the world, need to be educated about the rich cultural heritage and distinctiveness of Torres Strait culture. He is striving to record and illustrate his ancestral beliefs and traditions through the visual and performing arts. David has also been a member of the Royal Australian Army Reserve; he is a Councillor and Project Officer with Kubin Community Council and a founding member of the Mualgau Mineral Art group of Moa Island. DAY 11: ARRIVE HORN ISLAND OR CAIRNS
Disembark in Horn Island at 8:00am
Disembark in Cairns at 8:00am

TRIP LOG
“We had arrived off Moa Island early last evening and straight after breakfast we made our way into the boat landing at the settlement of Kubin. Here we were warmly welcomed by David Bosun, an artist and community leader, who led us up to the art centre where several workshops had been organised, ranging from weaving to linocut printing. There was a great variety of art and many of us took advantage of the opportunity to buy direct from the artists. The village was spotlessly clean and the people so friendly - nothing was too much trouble for them. We took a walk up the headland for a view over the ocean and heard about the traditional understanding of the currents and how they indicated the whereabouts and availability of dugong and turtle.

David directed us to Browne Island, which had a most beautiful beach. We swam in the wonderfully clear, cool water, or climbed the sand dunes to take in the view. All too soon, it was time to take our leave of Moa, but I am sure that none of us will forget it. It was a stunning place and a special visit.”

Too many corals and fish to mention and we had the special experience of seeing sharks, turtles and following a graceful manta ray. We had a great time with fellow guests from around the world and we shared good times with a fun and attentive crew who run a tight ship. They are clearly very experienced and work hard to make sure guests get the best and most out of their trip.
