TRIP LOG

“We took eager guests up to Cook’s Look at 6am, making it to the summit in just over an hour. The view from the top was spectacular. After breakfast, we landed at Watson’s Bay where we enjoyed snorkelling, beach walking and glass bottom boat tours, spotting giant clams and tiny fish twirling around anemones. We departed Lizard Island for Ribbon Reef #9 and arrived just after lunch. Snorkelling and diving were amazing here – we saw so many different schools of fish, large red bass and clouds of sweet lips congregating around the reef. One large white tip reef shark was spotted multiple times, and lots of moreish idols and beautiful butterfly fish were seen. The keen snorkelers were impressed with the coral density and spectacular visibility.”

EXPEDITION HIGHLIGHTS

TRIP LOG

“We had arrived off Moa Island early last evening and straight after breakfast we made our way into the local landing at the settlement of Kubin. Here we were warmly welcomed by David Bosun, an artist and community leader, who led us up to the art centre where several workshops had been organised, ranging from weaving to lino printing. There was a great variety of art and many of us took advantage of the opportunity to buy direct from the artists. The village was spotlessly clean and the people so friendly - nothing was too much trouble for them. We took a walk up the headland for a view over the ocean and heard about the traditional understanding of the currents and how they indicated the whereabouts and availability of dugong and turtle. David directed us to Browne Island, which had a most beautiful beach. We swam in the wonderfully clear cool water, or climbed the sand dunes to take in the view. All too soon, it was time to take our leave of Moa, but I am sure that none of us will forget it. It was a stunning place and a special visit.”
