Our ships are built for environmentally responsible small-ship cruising, with refined navigation and nimble Xplorer tenders to bring you close to remote coastlines.

SailSAFE

Our Health & Safety Plan for guests & crew

Our SailSAFE Plan

It is always our priority to keep our guests and crew safe while travelling with us. We have put in place a range of tested and proven protocols to manage our expeditions in a world in which COVID-19 exists. We have partnered with Respond Global, a specialist medical advisory agency, to develop this system that is among the most thorough in the world.

Our key focus is on preventative measures where our protocol includes mandatory vaccination and COVID-19 testing for all guests and crew prior to boarding. Once on board we have adopted a wide range of mitigation actions and a response plan that is approved by authorities in the regions in which we operate. Our plan is supported by Standard Operation Procedures, developed for each vessel requirements specific to the cruise destination.

We have maintained a high standard of safety and guest comfort for almost four decades - a record we are proud of.

The more energetic may join our guides on a walk to 'Cook's Look' on the island's peak. From this high point, Lt. James Cook found a safe passage through the treacherous reef after repairing the *HMB Endeavour* near Cooktown over 250 years ago. The views from the lookout over the reef and islands are magnificent. Later, snorkel over giant clam gardens in the lagoon.

At Davie Reef, enjoy swimming and snorkelling and observe the large seabird rookery.

FORBES ISLAND

Enjoy a day exploring Forbes Island, an excellent spot for swimming or snorkelling from the pristine sandy beaches. Take a walk to the grave of beche-de-mer fisherman Frederick Lancaster. REMOTE OSPREY REEF

One of the world's best dive sites, Osprey Reef is a submerged atoll in the Coral Sea. The top of a mountain which rises from the seafloor, surrounded by a vast ocean, it draws many beautiful and rare marine creatures to its plummeting walls. Osprey Reef is a highly prized tropical dive location amongst scuba divers, called an 'oasis for living creatures of all kinds' by Sir David Attenborough. The vibrant corals and crystal-clear waters make it an unforgettable place to discover. Here we will spend time in the water exploring the 30m deep lagoon and drift diving the walls, where you may see large pelagic fish, rays, and sharks drawn in from the surrounding deep blue to this ocean oasis. Disembark in Horn Island at 8:00am
Disembark in Cairns at 8:00am

TRIP LOG

"Today was a perfect geological contrast; we would be visiting one of each of the two main types of island we have on the Great Barrier Reef; Forbes, an example of a continental shelf island, and Magra, an example of a coral cay. The former we visited in the morning. Here we crossed over a coral reef forming a literal barrier to the bay. We landed on a beautiful sand island and Tom our guest lecturer took the group off to visit Lancasters lonely grave. Meanwhile, the first of our guests ventured into the clear calm water for a snorkel. While the reef wasn't the most colourful, there were fish to be seen, including a huge guitarfish, a large type of ray. Upon return to the ship we had lunch, and this was followed by me giving a talk on the common groups of fish encountered on the coral reef, including Butterflyfish, Angelfish, Parrotfish, Wrasse, the Damselfish (including Nemos!), and Surgeonfish & Tang."
